OBJECTIVE

Aspiring software developer currently attending Southern Alberta Institute of Technology taking a software development diploma. Bringing a strong foundation in C#, Python, HTML and CSS, with eagerness to gain valuable experience. I have a keen interest in software applications and user experience.

RELEVANT SKILLS

I bring a versatile and comprehensive skill set to the field of software development, with a special focus on enhancing user experience and design. My aim is to deliver efficient and impactful programming solutions in my future endeavors. I excel both as an independent contributor and as a collaborative team member, always with a commitment to ongoing learning and development. This approach not only drives my professional growth but also ensures the delivery of high-quality, user-centric software solutions.

EXPERIENCE

2019-2021	Ski Patroller Worked alongside a tight knit team patrolling Nakiska ski resort. I was responsible for rescuing injured people, monitoring weather patterns, avalanche prevention, and maintaining safety measures at the mountain. This position proved to further my confidence in group environments.
2023-Present	Aluminum Pergola Installer Working alone or with one other person, I install aluminum pergolas, outdoor screens, and other similar outdoor structures/amenities. This position demonstrates my ability to work individually as well as in a small team.

EDUCATION

January 2023 - Present	Software Development Diploma Southern Alberta Institute of Technology (SAIT) Currently enrolled in a two-year diploma program focusing on software development and programming.
------------------------	--

OTHER SKILLS

- Hobby level knowledge of Unity and game development.
- Extensive knowledge in audio mixing and production.
